Leonardo L. Ganas Jr.

Full-Stack .NET Software Developer

Malaybalay City, Bukidnon, Philippines | +63 916 145 2948 | leoganas.jr@gmail.com | leoganas.com | linkedin.com/in/leo-ganas-468b50212

PROFESSIONAL SUMMARY

Full-Stack .NET Software Developer with 6+ years of experience building scalable web and mobile applications on modern Microsoft technologies. Currently working remotely with teams in Malta (KVLR Code, Born Digital) maintaining an ASP.NET Core licensing platform. Specialized in Blazor (WebAssembly & Hybrid MAUI), Clean Architecture, and RESTful API development, with a track record of shipping production systems for government agencies and private-sector clients alike. Strong foundation in database design, front-end integration, and cloud-based CI/CD pipelines.

PROFESSIONAL EXPERIENCE

.NET Software Engineer

KVLR Code December 2025 – Present

- Maintain and refactor a large, long-running legacy ASP.NET Core / C# codebase for a licensing platform
- Untangle and modernize existing modules while preserving production behavior, improving readability and maintainability
- Work across the data layer with Entity Framework and SQL Server, keeping the codebase clean and production-stable
- Collaborate remotely with a distributed engineering team based in Malta

.NET Software Engineer

Born Digital December 2025 – Present

- Maintain and refactor a sizeable legacy codebase of ASP.NET Core Web APIs in C# for the same licensing platform initiative
- Identify and reduce technical debt in existing services while shipping new functionality alongside the refactor
- Focus on clean API design and reliable integration between services across the .NET stack

Full-Stack Blazor & MAUI Developer

Blackfort PH Consulting Inc. June 2023 – December 2025

- Developed full-stack applications using Blazor WebAssembly and .NET MAUI
- Converted Figma designs into responsive web and mobile interfaces
- Built REST API endpoints for seamless CRUD integrations
- Maintained scalable architecture and reusable components; integrated Telerik and MudBlazor UI libraries

Blazor WebAssembly Developer

Provincial Government of Misamis Oriental May 2021 – June 2023

- Developed a Progressive Web App using Blazor WebAssembly
- Designed and deployed an Electronic Leave Application System
- Maintained and enhanced post-deployment features; conducted employee training sessions

.NET Developer

Department of Social Welfare and Development January 2020 – December 2020

- Developed and enhanced a Document Management System
- Digitized OCR documents for system integration and maintained application functionality

Digitization Project Team Leader

Software Venture International January 2020 – August 2020

- Led digitization workflow and supervised the team as a full-time developer
- Ensured data accuracy and quality assurance; provided structured data for document systems

EDUCATION

Bachelor of Science in Technology – Web Development | Cagayan de Oro College | 2014 – 2018
Misamis Oriental General Comprehensive High School | 2010 – 2014

TECHNICAL SKILLS

Languages & Frameworks: C#, .NET 8/9, ASP.NET Core, ASP.NET MVC, Blazor (WebAssembly & Hybrid MAUI)
Front End: HTML, CSS, Bootstrap, JavaScript
Data: SQL Server, Entity Framework
Architecture & DevOps: Clean Architecture, CQRS, Azure DevOps, Azure CI/CD Pipelines, OpenAPI / Swagger
UI Libraries: Telerik UI, MudBlazor, Kendo UI
